

# Clinical Analytics Version 2021.2 Release Notes

Kaufman Hall Software is now **Syntellis Performance Solutions!**

The 2021.2 release includes encounter roles for mid-level providers and new COVID-19 diagnosis codes.

## General Features

### Mid-level provider encounter roles

We have expanded our physician role options to allow users to be able to select 'Attending APP' and/or 'Consulting APP' as a role for mid-level providers when running PPE reports and in Scorecards.

### New COVID-19 codes

The following new COVID-19 diagnosis codes have been added:

- » Encounter for screening for COVID-19
- » Contact with and (suspected) exposure to COVID-19
- » Personal history of COVID-19
- » Multisystem inflammatory syndrome
- » Other specified systemic involvement of connective tissue
- » Pneumonia due to coronavirus disease 2019
