About the Release Notes

Syntellis is pleased to announce the 2023.4 release of Clinical Analytics. Each product release provides new features, enhancements, and configuration options. Many of these features and enhancements are a direct result of your feedback and suggestions.

The purpose of these release notes is to provide you with the following:

- High-level descriptions of new features
- Information to know before upgrading
- Steps for preparing for and scheduling your upgrade
- List of fixed issues

Get help and training

Syntellis provides world-class resources directly within the Axiom system. Axiom Help provides topics, release notes, webinar/training announcements, and videos to guide you through managing your system.

To access these resources, click **Online Help** from the **Main** or **Admin** tabs, and then select the product. Axiom Help opens in a new browser. The online help opens only for products you are licensed to use.

► Syntellis Central

Syntellis Central provides centralized self-service content and resources for the 2023.3 platform and suite of products. Using Syntellis Central, you can:

- Search help across all Axiom products.

- Access tips, tricks, and best practices in our knowledge base.

- Find training and certification content, including on-demand, video, webinars, labs, and instructor-led courses.

- Ask a question in the peer-to-peer Syntellis Community.

- Submit a Support issue, find suggested content, and manage any outstanding issues directly with Support.

What's new in version 2023.4

Welcome to Version 2023.4 of Clinical Analytics!

This release of Clinical Analytics includes the following new features and enhancements:

▶ Publish to Visual Insights for Scorecard Details section

Provided capability to publish details data to an external table for consumption by Axiom Visual Insights to create visualized reports.

▶ Set values for Prevention Quality Indicators (PQI) measure rates

Internal PQI rate measures display the count rather than 100%, exclusively.

▶ Updated Coding Analytics Benchmarks to version 40

Coding analytics benchmarks were updated to v40 so that results are relevant.

▶ Updated Clinical Analytics license for FusionCharts

The license key to activate FusionCharts 3.20 was updated.

▶ Published visualized Scorecard reports using Axiom Visual Insights

Users can publish visualized Scorecard reports the Details Section data using Axiom Visual Insights.

▶ Added new Physican Practice Evaluation (PPE) measures

The following PPE measures were created for Merit-Based Incentive Payment Systems (MIPS) denominators from clients providing this data:

- Physician - MIPS 001 - Diabetes: Hemoglobin A1c Poor Control - Denominator

- Physician - MIPS 005 - Heart Failure (HF): ACE Inhibitor or ARB or ARNI Therapy for Left Ventricular Systolic Dysfunction - Denominator

- Physician - MIPS 006 - Coronary Artery Disease (CAD): Antiplatelet Therapy - Denominator

- Physician - MIPS 007 - Coronary Artery Disease (CAD): Beta-Blocker Therapy - Prior Myocardial Infarction (MI) or Left Ventricular Systolic Dysfunction (LVEF < 40%) - Denominator

- Physician - MIPS 008 - Heart Failure (HF): Beta-Blocker Therapy for Left Ventricular Systolic Dysfunction (LVSD) - Denominator

- Physician - MIPS 039 - Screening for Osteoporosis for Women Aged 65-85 Years of Age - Denominator

- Physician - MIPS 065 - Appropriate Treatment for Upper Respiratory Infection (URI) - Denominator

- Physician - MIPS 093 - Acute Otitis Externa (AOE): Systemic Antimicrobial Therapy - Avoidance of Inappropriate Use - Denominator

- Physician - MIPS 110 - Preventive Care and Screening: Influenza Immunization - Denominator

- Physician - MIPS 111 - Pneumococcal Vaccination Status for Older Adults - Denominator

- Physician - MIPS 112 - Breast Cancer Screening - Denominator

- Physician - MIPS 113 - Colorectal Cancer Screening - Denominator

- Physician - MIPS 118 - Coronary Artery Disease (CAD): Angiotensin-Converting Enzyme (ACE) Inhibitor or Angiotensin Receptor Blocker (ARB) Therapy - Denominator

- Physician - MIPS 130 - Documentation of Current Medications in the Medical Record - Denominator

- Physician - MIPS 176 - Tuberculosis Screening Prior to First Course Biologic Therapy - Denominator

- Physician - MIPS 444 - Medication Management for People with Asthma - Denominator

- Physician - MIPS 182 - Functional Outcome Assessment - Denominator

- Physician - MIPS 185 - Colonoscopy Interval for Patients with a History of Adenomatous Polyps - Avoidance of Inappropriate Use - Denominator

- Physician - MIPS 236 - Controlling High Blood Pressure - Denominator

- Physician - MIPS 326 - Atrial Fibrillation and Atrial Flutter: Chronic Anticoagulation Therapy - Denominator

- Physician - MIPS 331 - Adult Sinusitis: Antibiotic Prescribed for Acute Viral Sinusitis (Overuse) - Denominator

- Physician - MIPS 418 - Osteoporosis Management in Women Who Had a Fracture - Denominator

- Physician - MIPS 438 - Statin Therapy for the Prevention and Treatment of Cardiovascular Disease - Denominator

Issues fixed in 2023.4

The following table lists resolutions for issues addressed in 2023.4.

Issue	Description
Same named crosswalks are accepted in Database Management System (DMS) [17267]	**Summary:** Duplicated or created crosswalks with existing names could erroneously appear in the system. Crosswalks with the same names are not allowed because users cannot distinguish between them (for example, when selecting a crosswalk for File Transfer Protocol (FTP) folders). **Resolution:** Added a validation rule that is unique to crosswalk models.
Users can't name a report the same name as a "deleted" report [17294]	**Summary:** When users attempted to delete a PPE report that was used in the past, the report appeared to be deleted, but it was not, which caused confusion when users were unable to name reports because the name already existed in the system. **Resolution:** Updated the PpeReport name validation logic to only check name uniqueness among active reports.
